ECCENTRICO LIQUOR

ITALIAN TONKA LIQUOR

What is Fava Tonka?

It's a seed that grows in South America, between Brazil and Venezuela.

It is extracted, dried out, rumo-soaked for 15 days and dried out again.

It is used for cooking, for pastry-making (like grated nutmeg); it is used as spice with Vermouth and Gin.

Nowadays we have the first liquor in the world.
